

AutoCross-Laser 2 Plus

Cross-line laser with 2 clearly visible laser lines and integrated hand receiver mode

Rev.0316

- **PowerBright-Laser⁺**: Special high-performance laser diodes project extremely visible laser lines.
- This unit produces **2 very visible laser lines** which make it outstanding for the alignment of tiles, wall studding, windows, doors, etc.
- The **magnetic wall bracket** allows the unit to be used as a stand-alone device or in combination with other devices – on walls and attached to magnetic objects
- Ideal for **mounting on drywall construction profiles**
- **Automatic Level**: automatic alignment by virtue of a magnetic pendulum system.
- **Tilt mode is an additional feature** that permits gradients to be laid out.
- **Individually switchable** laser lines.
- **Out-Of-Level**: is indicated by optical signals when the unit is outside its self-levelling range.
- **RX-Ready**: The integrated hand receiver mode detects the laser lines with the optional laser receiver RX up to a max. of 40 m radius – ideal for all interior and exterior applications.
- **Transport lock**: A pendulum lock protects unit during transport.
- **Simple, uniform operating techniques.**
